

InFocus IN1024

INFOCUS IN1024

Brief Introduction  
Beta 2.5

A brief introduction to the IN1024: The InFocus 3D LCD projector offers 4000 Ansi lumens, a contrast of 50000:1 and an XGA 1024 x 768 resolution. The lamp life is specified by the manufacturer as 20000 hours, which converts to over 27.4 years at 2 hours per day. Includes an integrated media player that can be used to play files directly. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector can illuminate images up to 551 cm wide thanks to its 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 367 cm. Playback of 1080P and 4K (compressed) as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently available can be recognized by the projector.
