

InFocus IN1108SL

INFOCUS IN1108SL

The InFocus IN1108SL Laser DLP projector has 5,375 ANSI lumens, a contrast ratio of 2,000,000: 1, and an HDTV resolution of 1920 x 1080. The manufacturer specifies a laser lifespan of 20,000 hours, which equates to over 13.7 years based on four hours of use per day. Horizontal and vertical keystone correction ensures effortless image setup. Since InFocus specifies the projector's brightness in lumens, we have calculated an approximate ANSI- lumen value in this case. With a brightness of 5,375 ANSI lumens, an image width of 745 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend a maximum of 497 cm). The projector can also handle 1080p and 4K (compressed) video signals with ease, and thanks to its 360° projection capability, it can even project Blu-rays onto the ceiling.
