

InFocus IN119HDxa

INFOCUS IN119HDXA

The IN119HDxa 3D DLP projector from InFocus has 3600 Ansi lumens, a contrast of 28000:1 and an HDTV 1920 x 1080 resolution. The manufacturer InFocus specifies a lamp life of 15000 hours, which is equivalent to over 20.5 years at 2 hours per day. The projector will be able to illuminate a picture width of 610 cm. Rooms with residual light can be created by the projector with a smaller image width, max. 407 cm is recommended here. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Even 1080P video signals and 3D are no problem for the projector. It was launched on the market in 2018 and is no longer offered by the manufacturer InFocus.
