

InFocus IN2126

INFOCUS IN2126

The InFocus IN2126 DLP projector has 3200 Ansi lumens, a contrast of 4000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies a lamp life of 3500 hours, which converts to over 4.8 years at 2 hours per day. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. An image width of up to 575 cm is possible as the projector has 3200 Ansi lumens. However, if room light is available, the image should be max. 383 cm wide. Even 1080P video signals are no problem for the projector. With only 30 decibels of operating noise, the model is very quiet compared to others. On the market since 2012, the model is no longer offered by the manufacturer InFocus.

1 x 0,65" DDP2431 DDR DLP Chip
