

InFocus Quantum Crusader Challenger

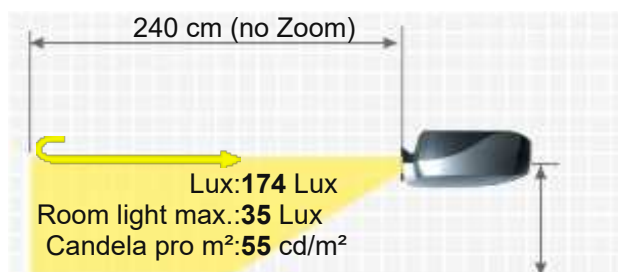

INFOCUS QUANTUM CRUSADER CHALLENGER

A brief introduction to the InFocus Quantum Crusader Challenger. The portable DLP LED projector has a HDTV 1920 x 1080 resolution and 392 ANSI lumens. It is an LED projector with a 25,000-hour light lifespan, which is over 17.1 years with four hours of use per day. The projector is equipped with an integrated media player that can play files directly, so there will be no problem with that. Since InFocus indicates the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. A screen width of up to 201 cm is possible. However, the image should be smaller if viewed in ambient light. We recommend a maximum of 134 cm. The built-in 55.5Wh battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. Thanks to Google TV, the projector can be conveniently controlled by voice command. The model recognises Chromecast and screen mirroring signals, making it possible to play high-resolution videos and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Another extra worth mentioning is the Bluetooth function, which allows the projector to be connected to external wireless speakers. The projector can also handle 1080P video signals with ease. With only 28 decibels of operating noise, the model is already very quiet compared to others.

Brief Introduction Beta 2.5

Display Type	 1 x 0,23" DMD DLP Chip  HDTV 16/9 Ti Digital Light Processing Chip	
Ansi-Lumen	Projector 392 / 350 ISO Lumens	Screen 174 Lux (bei 200 cm Screen)
