

InFocus ScreenPlay Genesis II SP229

Brief Introduction

Beta 2.5

A brief introduction to the InFocus ScreenPlay Genesis II SP229. The DLP projector has a WUXGA 1920 x 1200 resolution and 4000 Ansi lumens. The lamp in the projector is specified with a lamp life of 15000 hours, which converts to over 20.5 years at 2 hours per day. An image width of up to 643 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Playing 1080P and 3D is also no problem for the projector. With only 27 decibels of operating noise, the model is already very quiet compared to others.
