

InFocus ScreenPlay Vista SP2236

INFOCUS SCREENPLAY VISTA SP2236

The InFocus ScreenPlay Vista SP2236 3D DLP projector has 4700 Ansi lumens, a contrast of 30000:1 and a WXGA 1280 x 800 resolution. The lamp in the projector is specified with a lamp life of 15000 hours, which converts to over 20.5 years at 2 hours per day. Thanks to the brightness of 4700 Ansi lumens, a picture width of 697 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 465 cm). Video signals 1080P and 3D are also no problem for the projector. The projector is very quiet compared to other projectors with an operating noise of 27 decibels.
