The Jimveo J61 micro-portable LCD projector has 750 Ansi lumens, a contrast of 18000:1 and an HDTV 1920 x 1080 resolution. The projector can illuminate a picture width of up to 278 cm thanks to the 750 Ansi lumens. In room light, however, the picture width should ideally be less than 185 cm. As the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Even 1080P and 4K (compressed) video signals are no problem for the projector.

- 1 x LCD Panel
- HDTV 16/9 Liquid Crystal Display
