

Jmgo N3 Pro

J M G O N 3 P R O

A brief introduction to the Jmgo N3 Pro. The home theater DLP laser projector has a UHD (4K2K) 3840 x 2160 resolution and a contrast of 5000:1. Manufacturer Jmgo specifies a lifespan of 30,000 hours, which is over 20.5 years at four hours of enjoyment per day. Since Jmgo specifies the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. The brightness of 3000 Ansi-Lumen allows for a screen width of 556 cm. In room light, the image should be max. 371 cm wide. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector has Airplay, Miracast Screen Mirroring support, which allows high-resolution video and surround sound to be played directly from smartphones, tablets and PCs running Android, Windows or iOS over a Wi-Fi connection. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Video signals 1080P and 4K are also no problem for the projector.

Brief Introduction

Beta 2.5

Display Type

1 x 0,47" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

3000 / CVIA Lumen 1333 Lux (200 cm Screen width)
