

Jmgo N3 Ultra Max

J M G O N 3 U L T R A M A X

Brief Introduction

Beta 2.5

Introducing the N3 Ultra Max: The Jmgo projector offers 4480 ANSI lumens and a UHD (4K2K) 3840 x 2160 resolution. Since Jmgo indicates the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The brightness of 4480 ANSI lumens makes a picture width of 680 cm possible. The projector can also handle slightly brighter rooms with a smaller image width (we recommend max. 453 cm). Google TV turns the projector into a smart entertainment centre with countless functions. The projector has Airplay, Miracast Screen Mirroring support, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via Wi-Fi. The model is also Full HD 1080P and 4K compatible.
