The short-throw O1 Pro LED DLP projector from Jmgo has 1250 Ansi lumens, a contrast of 6000:1 and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 45000 hours, which is equivalent to over 30.8 years at 4 hours per day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. Thanks to the short-throw projection ratio of just 0.21:1, the projector does not disturb the room. For a 2m wide image, the projector only needs to be 42 cm away from the screen. Playing 1080P is also no problem for the projector.
