The stationary JVC DLA M4000 DILA projector has 4000 Ansi lumens, a contrast of over 350:1 and an SXGA+ 1365 x 1024 resolution. The integrated lens shift provides freedom when positioning the projector. An image width of up to 551 cm is possible as the projector has 4000 Ansi lumens. The projector creates rooms with residual light with a smaller image width, max. 367 cm is recommended. The model was built by JVC in 2000 and is no longer current. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
