The stationary DLA SH4K/NLG DILA has 3500 Ansi lumens, a contrast of 10000:1 and a UHD (4K+2K+) 4096 x 2400 resolution. With the lens shift function, the projector can be positioned very freely. An image width of up to 515 cm is possible as the projector has 3500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 343 cm. Playing 1080P and 4K is also no problem for the projector. This model is no longer offered by JVC. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
