

JVC DLA X30 B/W

JVC DLA X30 B/W

A brief introduction to the DLA X30 B/W: The JVC 3D DILA projector offers 1300 Ansi lumens, a contrast of 50000:1 and a UHD (4K2K) 3840 x 2160 resolution. Including a lens shift function, which provides freedom during installation. The projector can illuminate a picture width of up to 366 cm thanks to the 1300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 244 cm. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector. The operating noise of just 20 decibels makes the projection quiet. It was launched in 2011 and is no longer offered by the manufacturer JVC, but is still a popular projector in our database.
