

# JVC DLA-X7000

JVC DLA-X7000

The high-end home cinema DLA-X7000 3D DILA has 1800 Ansi lumens, a contrast of 120000:1 and a WUXGA 1920 x 1200 resolution. The integrated lens shift gives freedom when positioning the projector. An image width of up to 431 cm is possible as the projector has 1800 Ansi lumens. However, if there is room light, the picture should be max. 287 cm wide. The model is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 21 decibels makes the projection quiet. The model was built by JVC in 2015 and is no longer current, but is still very popular in our projector database.

3 x 0,7" DILA Chip

WUXGA 16/9 Direct-Drive Image Light Amplification (D-ILA)
