

JVC DLA X790 /R

JVC DLA X790 /R

A brief introduction to the JVC DLA X790 /R. The high-end home cinema DILA projector has a UHD (4K2K) 3840 x 2160 resolution and a contrast of 1300000:1. The built-in lens shift function provides freedom when setting up. An image width of up to 443 cm is possible, as the projector has 1900 Ansi lumens. However, if room light is available, the picture should be max. 295 cm wide. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector. At just 20 decibels, the device is one of the quieter projectors. The model built in 2017 is no longer offered by JVC.

Brief Introduction

Beta 2.5
