

KIANO Vision 2

KIANO VISION 2

The KIANO Vision 2 micro-portable LED LCD projector has 270 ANSI lumens, a contrast ratio of 500:1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the projector has a specified light source lifespan of 30,000 hours, which, based on four hours? daily use, would equate to over 20.5 years. Thanks to the horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 103 cm is possible, as the projector has 270 ANSI lumens. However, if there is ambient light in the room, the image should not exceed 69 cm in width. Thanks to the built-in 2,500 mAh battery (2.5-hour runtime), no mains power supply is required, allowing the projector to be set up quickly and flexibly. The model supports DLNA, AirPlay and Miracast screen mirroring signals, so it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Furthermore, it is Full HD 1080p compatible. Compared to other projectors, this one is very quiet, with an operating noise level of 28 decibels.
