Operating Noise

The Game-Portabel EH3BS LCD has 78 Ansi lumens and a VGA 640 x 480 resolution. As Klarstein specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. Due to the brightness of 78 Ansi lumens, a picture width of 77 cm is possible. In room light, the picture should be max. 51 cm wide. The model was built by Klarstein in 2011 and is no longer current.

1 x LCD TFT Panel
VGA 4/3 Liquid Crystal Display
