

KOGATA GC355

KOGATA GC355

The Micro-Portable GC355 LED LCD Projector from KOGATA has 1200 ANSI lumens and an HDTV 1920 x 1080 resolution. Manufacturer KOGATA specifies a service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. 1200 ANSI lumens ensure that an image width of 352 cm is also possible. However, if there is ambient light in the room, the image should be no more than 235 cm wide. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The model is also compatible with Full HD 1080P and 4K (compressed).
