

LG ProBeam BU60RG

LG PROBEAM BU60RG

The LG ProBeam BU60RG model is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 3000000:1. It is a laser projector with 20000 hours of light life, which converts to over 13.7 years at 4 hours of use. With the lens shift function, the projector can be positioned very freely. Thanks to the brightness of 6000 Ansi lumens, a picture width of 787 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 525 cm). As the projector recognizes Chromecast, Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. It is also compatible with Full HD 1080P and 4K as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. It was launched in 2023 and is no longer offered by the manufacturer LG.
