

Lightware Scout XL

LIGHTWARE
SCOUT XL

A brief introduction to the Scout XL: The Lightware standard portable LCD projector offers 609 Ansi lumens, a contrast of 200:1 and an SVGA 800 x 600 resolution. As Lightware specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. An image width of up to 215 cm is possible, as the projector has 609 Ansi lumens. However, if room light is available, the picture should be max. 143 cm wide. The model is no longer offered by Lightware. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither originals nor replicas.
