The Lumistar Pro+ LED LCD projector has 550 ANSI lumens, a contrast ratio of 3000:1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the projector is rated for a lifespan of 30,000 hours ? which, at four hours? use per day, equates to over 20.5 years. Horizontal and vertical keystone correction provides flexibility when setting up. The 550 ANSI lumens ensure that an image width of up to 138 cm is possible. However, in bright rooms, the image should be no wider than 92 cm. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) directly via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Furthermore, the projector can play back 1080p and 4K (compressed) content without any issues.
