

LYNCAST HY300 Pro+

LYNCAST HY300 PRO+

A brief introduction to the LYNCAST HY300 Pro+. This portable LCD LED gaming projector has an HDTV resolution of 1280 x 720 and a contrast ratio of 1500:1. It is an LED projector with a lamp life of 30,000 hours, which, based on four hours? daily use, would last over 20.5 years. The built-in media player can play files directly. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. With a brightness of 300 ANSI lumens, an image width of 144 cm is possible. In room lighting, the image should be no more than 96 cm wide. The model recognises AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another useful feature is that the projector can be connected to external wireless speakers via its Bluetooth function. The model is also compatible with Full HD 1080p and 4K (compressed). At 25 decibels, the projector is very quiet compared to others.

1 x 2,69" LCD TFT Panel
HDTV 16/9 Liquid Crystal Display
