LYNCAST HY320

Brief Introduction Beta 2.5	The Game-portable LYNCAST HY320 LED LCD projector has 400 ANSI lumens, a contrast ratio of 2000:1 and an HDTV 1920 x 1080 resolution. It is an LED projector with a 30,000-hour light lifespan, which would be over 20.5 years with a daily viewing time of 4 hours. It includes an integrated media player that can be used to play files directly. The projector can illuminate a width of up to 203 cm well thanks to the 400 ANSI lumens. However, in a well-lit room, the image width should ideally be less than 135 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via the Bluetooth function. Video signals 1080P and 4K (compressed) are also no problem for the projector. Compared to others, the projector is very quiet with an operating noise of 25 decibels.
