

LYNCAST LumeCube L018

Brief Introduction

Beta 2.5

Brief introduction to the LYNCAST LumeCube L018. The micro-portable LCD LED projector features an HDTV resolution of 1920 x 1080 and a contrast ratio of 10,000:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours per day. Horizontal and vertical keystone correction ensures effortless image setup. 800 ANSI lumens ensure that an image width of up to 203 cm is possible. However, if there is ambient light in the room, the image should be no wider than 135 cm. In addition, the Bluetooth capability is a useful feature for the projector, particularly for wireless audio transmission. Furthermore, it is compatible with Full HD 1080p, 4K (compressed), and 3D, meaning the projector can recognize all currently available Blu-ray formats. The operating noise of just 28 decibels makes the projection quiet.
