

LYNCAST X5 PRO MAX

LYNCAST X5 PRO MAX

The LYNCAST Model X5 PRO MAX is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 15,000:1. Thanks to the LEDs, the projector has a specified lamp life of 20,000 hours, which equates to over 13.7 years if used for four hours a day. The projector also features a built-in media player that allows files to be played directly. Built-in horizontal and vertical keystone correction offers flexibility when setting up the projector. With 2,000 ANSI lumens, it is capable of projecting an image up to 389 cm wide. However, in well-lit rooms, the image should be no wider than 259 cm. Thanks to Google TV, the projector can be conveniently controlled via voice commands. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound directly from smartphones, tablets and PCs running Android, Windows or iOS. Another bonus worth mentioning is that the projector's Bluetooth function allows it to be connected to external wireless speakers. The projector also has no problem handling 1080p and 4K (compressed) video signals.
