

LYNCAST X7 Gold

LYNCAST X7 GOLD

The LYNCAST Model X7 Gold is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 18,000:1. Manufacturer LYNCAST specifies a lifespan of 30,000 hours, which amounts to over 20.5 years based on four hours of use per day. Files can be played directly via the built-in media player. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. An image width of up to 454 cm is possible. However, in room lighting, the image should be set to a smaller size. We recommend a maximum of 303 cm. The projector supports AirPlay and Miracast screen mirroring, allowing high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS.

Brief Introduction

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display
