

Magcubic HY350 NTV

EAN/UPC:B0GS82JFTG

MAGCUBIC HY350 NTV

The Magcubic HY350 NTV 3D LED LCD projector has 600 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV resolution of 1920 x 1080. The manufacturer specifies an LED lifespan of 30,000 hours, which equates to over 20.5 years based on four hours? use per day. The projector also features a built-in media player that allows files to be played directly. The horizontal and vertical keystone correction provides flexibility when setting up. Thanks to its 600 ANSI lumens, the projector can effectively illuminate a screen width of up to 305 cm. However, in well-lit rooms, the image width should ideally be less than 203 cm. The model recognises DLNA, AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another feature worth mentioning is that the projector?s Bluetooth function allows it to be connected to external wireless speakers. Furthermore, the projector can play 1080p and 4K (compressed) without any issues.
