

Marantz VP 12S2

MARANTZ VP 12S2

The high-end Homecinema VP 12S2 DLP has 700 Ansi-Lumen, a contrast of 2600:1 and a HDTV 1280 x 720 resolution. The built-in lens shift and keystone correction function provides freedom when setting up. 269 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 179 cm. This model is no longer offered by Marantz, but is still a very popular projector. Unfortunately, we can no longer offer replacement lamps for this model, neither originals nor replicas.
