The Maxell MC-EX303E LCD projector has 3300 Ansi lumens, a contrast of 20000:1 and an XGA 1024 x 768 resolution. The manufacturer Maxell specifies a lamp life of 12500 hours, which is equivalent to over 17.1 years at 2 hours per day. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. The projector can illuminate an image width of up to 500 cm with its 3300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 333 cm. 1080P playback is also no problem for the projector. This model is no longer offered by Maxell.
