The Maxell MP-JW3501 laser LCD projector has 3500 Ansi lumens, a contrast of 2000000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. An image width of up to 601 cm is possible, if the image width is smaller (we recommend max. 401 cm), rooms with residual light are also no problem. The projector can also play 1080P without any problems. The projector was launched in 2020 and is no longer sold by the manufacturer.
