

MediaLy LED XS100-DVD

MEDIA LY LED XS100-DVD

The LED XS100-DVD LED LCD has 70 Ansi-Lumen, a contrast of 100:1 and an SVGA 800 x 600 resolution. The manufacturer MediaLy states a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. A picture width of up to 73 cm is possible. However, the picture should be smaller in room light. We recommend max. 49 cm. The operating noise of only 30 decibels makes the projection quiet. This model is no longer offered by MediaLy.
