

Megapower ML40

MEGAPOWER ML40

Brief Introduction

Beta 2.5

A brief introduction to the ML40: The Megapower LED DLP projector offers 300 Ansi lumens, a contrast of 2000:1 and a WXGA 1280 x 800 resolution. The manufacturer Megapower specifies a service life of 30,000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector will be able to illuminate the 176 cm picture width well. However, if room light is available, the image width should ideally not exceed 117 cm. Thanks to the built-in rechargeable battery, the projector does not require a power supply for 2 hours, so it can be set up spontaneously and easily anywhere. Even 1080P playback is no problem for the projector. The projector was launched in 2016 and is no longer sold by the manufacturer.
