

Megapower ML62UST

MEGAPOWER ML62UST

Brief Introduction

Beta 2.5

A brief introduction to the Megapower ML62UST. This short-throw DLP laser projector has an HDTV resolution of 1920 x 1080 and 600 ANSI lumens. The manufacturer specifies a laser lifespan of 30,000 hours, which equates to over 20.5 years if used for four hours a day. This projector has a throw ratio of just 0.19:1. To project a 2-metre-wide image, the projector needs to be positioned just 38 cm from the screen. Thanks to the built-in 5,000 mAh battery, no external power supply is required, allowing the projector to be set up quickly and flexibly. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The projector also has no problem playing 1080p and 4K (compressed) content.
