

Megapower ML-T80

MEGAPOWER ML-T80

With the ML-T80, manufacturer Megapower offers a DLP LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1000:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours? use per day. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. With a brightness of 800 ANSI lumens, an image width of 176 cm is possible. In room lighting conditions, the image should be no more than 117 cm wide. Thanks to the built-in 2,600 mAh battery, no external power supply is required, allowing the projector to be set up quickly and flexibly. The model recognises DLNA, AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. Playing 1080p content is also no problem for the projector. At just 30 decibels, the device is one of the quieter projectors available.
