

miroir L810S Pro Smart

M I R O I R L 8 1 0 S P R O S M A R T

The standard portable L810S Pro Smart LED LCD has 400 ANSI lumens and HDTV 1920 x 1080 resolution. The manufacturer states an LED lifespan of 30,000 hours, which would be over 20.5 years with 4 hours of viewing per day. An image width of up to 203 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 135 cm. The projector has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector.

Brief Introduction

Beta 2.5

Display Type
