

Nec PA903X

NEC PA903X

With the PA903X, manufacturer Nec offers an LCD projector with XGA 1024 x 768 resolution and a contrast of 10000:1. The projector also offers a lens shift function, which makes setting up the image childs play. Thanks to the brightness of 9000 Ansi lumens, an image width of 826 cm is possible. The projector can also handle slightly brighter rooms with a smaller image width (we recommend max. 551 cm). If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, it is Full HD 1080P and 4K (compressed) compatible, and even has the option of projecting HD 1080P and 4K (compressed) Blu-rays onto the ceiling using 360° 1/2 projection. On the market since 2017, the model is no longer offered by the manufacturer Nec.
