

# Optoma EH515TST

OPTOMA EH515TST

A brief introduction to the Optoma EH515TST. The standard portable DLP projector has an HDTV 1920 x 1080 resolution and a contrast of 10000:1. Includes a lens shift and keystone correction function, which provides freedom during installation. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training courses. Thanks to the brightness of 5000 Ansi lumens, a picture width of 718 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 479 cm). A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Even 1080P video signals and 3D are no problem for the projector. At just 28 decibels, the device is one of the quieter projectors. The model built in 2017 is no longer offered by Optoma.
