

Optoma EX762

OPTOMA EX762

A brief introduction to the Optoma EX762. The DLP projector has an XGA 1024 x 768 resolution and a contrast of 3000:1. Thanks to the brightness of 4000 Ansi lumens, a picture width of 551 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 367 cm). Even 1080P video signals are no problem for the projector. At just 30 decibels, the device is one of the quieter projectors. This model is no longer offered by Optoma.

Brief Introduction

Beta 2.5
