

Optoma HD152X

OPTOMA HD152X

The Optoma HD152X standard portable 3D DLP projector has 3200 Ansi lumens, a contrast of 30000:1 and an HDTV 1920 x 1080 resolution. The lamp in the projector is specified with a lamp life of 10000 hours, which is over 13.7 years if enjoyed for two hours every day. Includes a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 575 cm is possible. However, the image should be smaller in ambient light. We recommend max. 383 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. The projector can also play 1080P and 3D without any problems. The operating noise of just 29 decibels makes the projection quiet. The model built in 2017 is no longer offered by Optoma.
