

Optoma HD161X

OPTOMA HD161X

A brief introduction to the Optoma HD161X. The home cinema DLP projector has an HDTV 1920 x 1080 resolution and a contrast of 40000:1. The lamp gives the projector a lamp life of up to 3500 hours, which would be over 4.8 years with a daily viewing time of 2 hours. Due to the brightness of 2000 Ansi lumens, a picture width of 454 cm is possible. In room light, the picture should be max. 303 cm wide. Playing 1080P and 3D is also no problem for the projector. On the market since 2014, the model is no longer offered by the manufacturer Optoma.

Brief Introduction Beta 2.5
