The Optoma HD230X BrilliantColor DLP projector has 2300 Ansi lumens, a contrast of 4000:1 and an HDTV 1920 x 1080 resolution. A picture width of up to 487 cm is possible. However, the picture should be smaller in room light. We recommend max. 325 cm. Even 1080P video signals are no problem for the projector. It was launched in 2012 and is no longer offered by the manufacturer Optoma, but is still one of the very popular projectors.
