

Optoma HD70

OPTOMA HD70

A brief introduction to the Optoma HD70. The home theater DLP projector has an HDTV 1280 x 720 resolution and a contrast of 3000:1 4000:1 in ImageAI mode. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. The projector can illuminate a picture width of up to 321 cm well thanks to the 1000 Ansi lumens. In room lighting, however, the image width should ideally be less than 214 cm. The projector is very quiet compared to others with an operating noise of 30 decibels. This model is no longer offered by Optoma, but is still very popular in our projector database.

1 x 0,62" 12 Grad DC2 DP3020 DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Projector	1000	Screen	444 Lux (200 cm Screen width)
