OPTOMA PROSCENE ZU725TST

Brief Introduction Beta 2.5	A brief overview of the ProScene ZU725TST: The Optoma 3D Laser DLP projector offers 7,000 ANSI lumens, a contrast ratio of 1,100:1, and a WUXGA resolution of 1,920 x 1,200. Thanks to its laser technology, the projector has a lamp life of up to 30,000 hours, which over 20.5 years at 4 hours per day. The projector also features a built-in media player that allows files to be played directly. It includes lens shift and keystone correction functions, which provide flexibility during installation. Since it is a short-throw projector, it can be placed very close to the wall. For a 2-meter-wide image, the projector needs to be positioned just 150 cm from the screen. In case the image is still too small, the projector offers built-in edge-blending software, which allows multiple projectors to combine their images to create a single large image
