

Optoma UHZ4000

OPTOMA UHZ4000

The Optoma UHZ4000 stationary 3D laser DLP projector has 5500 Ansi lumens, a contrast of 2400000 and a UHD (4K2K) 3840 x 2160 resolution. The service life is 20000 hours due to the laser, which would be the equivalent of over 13.7 years at 4 hours per day. Including a lens shift function, which provides freedom during installation. Thanks to the brightness of 5500 Ansi lumens, a picture width of 753 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 502 cm). With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The model is also compatible with Full HD 1080P and 4K as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector.
