

Optoma ZH506

OPTOMA ZH506

With the ZH506, manufacturer Optoma offers a DLP laser projector with resolution and a contrast of 300000:1. The service life is 30000 hours due to the laser, which is over 20.5 years with a daily viewing time of 4 hours. Including a lens shift and keystone correction function, which provides freedom during installation. 718 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 479 cm here. Video signals 1080P and 4K (compressed) are also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. It was launched in 2019 and is no longer offered by the manufacturer Optoma.
