

Optoma ZU750

OPTOMA ZU750

The Optoma model ZU750 is a DLP laser projector with WUXGA 1920 x 1200 resolution and a contrast of 2000:1. The manufacturer Optoma specifies a service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 880 cm is possible, if the image width is smaller (we recommend max. 587 cm), rooms with residual light are also no problem. It is also Full HD 1080P and 3D compatible. The model built in 2018 is no longer offered by Optoma, but is still very popular in our projector database.
