

Optoma ZW400

OPTOMA ZW400

A brief introduction to the ZW400: The Optoma 3D laser DLP projector offers 4000 Ansi lumens, a contrast of 2500000:1 and a WXGA 1280 x 800 resolution. It is a laser projector with 30000 hours of light life, which is over 20.5 years with four hours of use every day. 4000 Ansi lumens ensure that a picture width of 643 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. The projector can also play 1080P and 4K (compressed) without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. This model is no longer offered by Optoma.
