A brief introduction to the OTHA K1. The DLP LED projector has a WSVGA 960 x 540 resolution and 350 Ansi lumens. The manufacturer specifies an LED service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. Thanks to the brightness of 350 Ansi lumens, a picture width of 190 cm is possible. In room light, the picture should be max. 127 cm wide. The projector has DLNA, Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P compatible. The operating noise of only 25 decibels makes the projection quiet.
