

Panasonic PT DZ6700E/U/L

PANASONIC PT DZ6700E/U/L

The stationary PT DZ6700E/U/L DLP projector from Panasonic has 6000 Ansi lumens, a contrast of 2000:1 and a WUXGA 1920 x 1200 resolution. The projector also offers a lens shift function that makes image adjustment child's play. 787 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 525 cm here. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. It was launched in 2009 and is no longer offered by the manufacturer Panasonic, but is still one of the most popular projectors.

Brief Introduction

Beta 2.5

Display Type

1 x 0,67" DLP Chip
WUXGA 16/9 Ti Digital Light Processing Chip

Ansi-Lumen
